

Influencer Marketing — Outreach Strategy — Brand Partnerships — Audience Growth

Chandra Sai Charan Ramagiri

Overview

Developed a structured influencer outreach strategy focused on identifying relevant creators, building authentic partnerships, and increasing brand visibility through targeted collaboration opportunities.

The Challenge

Many brands struggle to find the right creators, establish meaningful partnerships, and maintain a scalable outreach process that consistently supports audience growth and brand awareness.

The challenge was to create a repeatable outreach system capable of connecting brands with highly relevant influencers while maintaining personalization and relationship quality.

Strategy

The strategy focused on three key areas:

- Creator Discovery
- Audience Relevance
- Relationship Building

Instead of prioritizing follower count alone, the approach emphasized audience alignment, content quality, engagement potential, and long-term partnership opportunities.

Execution

Creator Research

Researched and identified influencers whose audience demographics and content style aligned with campaign objectives.

Outreach Framework

Created structured outreach workflows designed to improve communication consistency and partnership management.

Relationship Management

Developed a process for initiating conversations, tracking responses, and nurturing collaboration opportunities.

Campaign Coordination

Supported creator communication, collaboration planning, and partnership execution workflows.
